

ABOUT SEATTLE COLLEGES

The Seattle Colleges serves metropolitan Seattle and surrounding communities and is the largest community college district in Washington state. The district includes Seattle Central College on Capitol Hill, North Seattle College near Northgate, and South Seattle College in West Seattle.

There are also five specialty centers across the city: the Georgetown campus, the Health Education Center and NewHolly Learning Center on Beacon Hill, the Seattle Maritime Academy in Ballard, and the Wood Technology Center in the Central District.

PROGRAMS

Seattle Colleges offers more than 130 academic, workforce education, and training programs in eight areas of study that lead to certificates and/or degrees. Many of the professional/technical programs offer short-term “stackable” training certificates that build on credentials and aid in career advancement.

Areas of Study

- Arts, Design, and Graphics
- Business and Accounting
- Culinary, Hospitality, and Wine
- Education and Human Services
- Health and Medical
- Skilled Trades and Technical Training
- Social Sciences, Humanities, and Language
- STEM

SEATTLE PROMISE

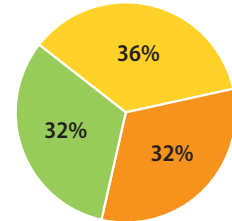

Seattle Promise—a partnership created in 2018 with the City of Seattle and Seattle Public Schools to create more equitable higher-education opportunities for Seattle public high school graduates—has already surpassed its 2025 target enrollment. With more than 860 students now enrolled, Seattle Promise offers graduates, regardless of GPA, income, ability, or country of birth, two years (or up to 90 credits) of tuition and additional financial support for books, transportation, housing, etc. to those with financial need. The program also provides personal support and guidance to ensure student success. Seattle Promise—an example of Seattle Colleges’ civic and educational partnerships—was recognized in 2020 by *The Seattle Times* as a flagship and leading the way for other promise programs in the region.

Annual Attendance, 2018–2019 44,015

Degrees & Certificates, 2018–2019
Awarded Annually 3,780

Enrollment by College 2018–2019

- North Seattle College
- Seattle Central College
- South Seattle College

Students, Fall 2019–2020

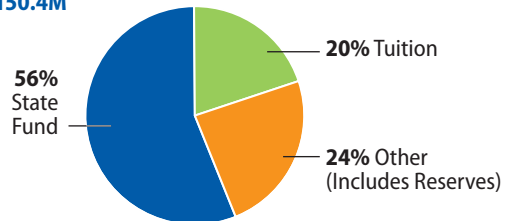

Median Age	28
Male/Female/Unreported	43%/47%/10%

Professional Technical and Other	46%
Academic & College Transfer	43%
Basic Skills/Precollege	11%

Student Ethnic Diversity, Fall 2019–2020

White	32%	Other Race	5%
Unknown/Not Reported	25%	Hispanic	1%
Asian	17%	Native American	<1%
African American	10%	Native Hawaiian	<1%
Multiracial	10%	Alaska Native	<1%

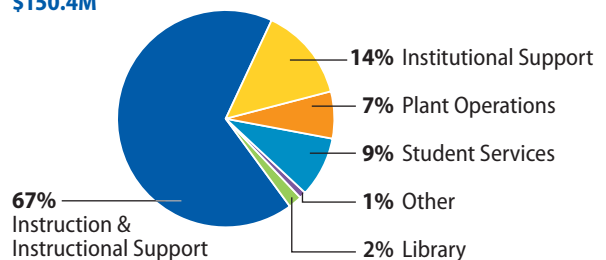

Operating Revenue, 2019–2020

Annual Revenue \$150.4M

Operating Expenses, 2019–2020

Annual Expenses \$150.4M

PREPARING STUDENTS FOR SUCCESS AND FILLING WORKFORCE NEEDS

Health Care

Seattle Central College opened a state-of-the-art Health Education Center at Pacific Tower to help meet the explosive growth in the industry. The number of health care openings is projected to increase by more than 23 percent (more than 35,000 jobs) in the next seven years. The 85,000-square-foot facility features labs outfitted with the latest medical and diagnostic equipment, computer labs, a library, and classrooms. Practical experience on equipment used by employers allows students to be job-ready on day one.

Maritime

A new building has quadrupled Seattle Maritime Academy's capacity to train new and current maritime professionals. The full mission bridge and engine simulators allow both students and employers to practice challenging scenarios under realistic conditions. With an increase in veteran maritime professionals retiring, the need has never been greater for graduates to fill vital roles in the maritime sector, including commercial and passenger transportation, commercial fishing, deep sea sailing, and the workboat industry.

Innovative Programs

In fall 2020, North Seattle College began the Accounting with International Accounting Bachelor of Applied Science (AIA BAS) program. The degree builds on an associate of applied science (AAS-T) degree in business, accounting, or real estate, and provides students with preparation for the Washington state CPA licensure requirements.

North also is one of the nation's only community colleges to offer a Bachelor of Applied Science degree in Residential and Commercial Property Management. The program provides a multidisciplinary curriculum, combining business, accounting, and real estate courses.

Integrated Education

South Seattle College recently opened a 57,550 square-foot Integrated Education Center (IEC) to increase the efficacy of vocational-focused English as a Second Language (ESL) learning, I-BEST training (basic skills while simultaneously getting job training), and nursing pathways for underrepresented populations.
