South Seattle College

Landscape Horticulture Certificate (*1 year certificate, 51 credits*)

CAREER PATHWAYS

Landscape Horticulture Certificate

The Landscape Horticulture Certificate program offers a foundation of horticulture knowledge in plant identification, growing, arboriculture, pruning, soils, plant problem diagnostics, and landscape installation and management. One-year certificate that demonstrates a foundation of horticultural information and a measurable commitment to specific goals and their achievement. Includes completion of: ENGL 107, BUS 116 and PSYC 240. Graduates typically find employment in landscape installation and management of residential, commercial and public areas, or with tree care companies, nurseries, and greenhouses. There are many opportunities for self-employment in this field.

For more information about the specific degree program or certificate go to:
