

**ABOUT SEATTLE COLLEGES**

The Seattle Colleges serves metropolitan Seattle and surrounding communities and is the largest community college district in Washington state. The district includes Seattle Central College on Capitol Hill, North Seattle College near Northgate, and South Seattle College in West Seattle.

There are also six specialty centers across the city: the Georgetown campus, the Health Education Center and NewHolly Learning Center on Beacon Hill, the Seattle Maritime Academy in Ballard, and the Wood Technology Center and Seattle Vocational Institute in the Central District.

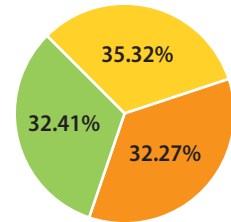

**Annual Attendance, 2017–2018** 46,333

**Degrees & Certificates, 2016–2017**  
Awarded Annually 4,185

**Enrollment by College 2017–2018**

- North Seattle College
- Seattle Central College
- South Seattle College

**Students, 2017–2018**

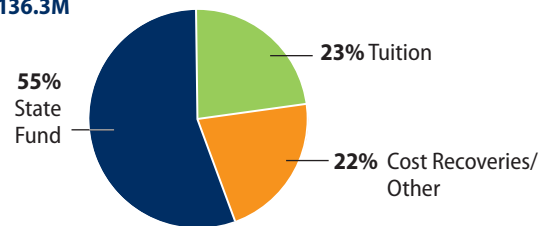

Median Age	28
Male/Female/Unreported	45%/48%/7%
Full-time/Part-time Attendance	37%/63%
Veteran & Dependent of Veteran Student Type	2.99%
Professional Technical and Other	45%
Academic & College Transfer	40%
Basic Skills/Precollege	14%

**Student Ethnic Diversity, 2017–2018**

White	32%	Other Race	4%
Unknown/Not Reported	24%	Hispanic	2%
Asian	20%	Native American	<1%
African American	9%	Native Hawaiian	<1%
Multiracial	9%	Alaska Native	<1%

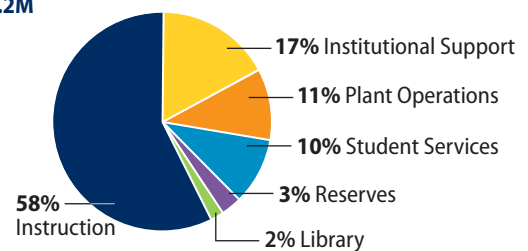

**Operating Revenue, 2018–2019**

**Annual Revenue \$136.3M**

**Operating Expenses, 2018–2019**

**Annual Expenses \$134.2M**

## PROGRAMS OF STUDY

**More than 130 workforce education and training programs lead to certificates and/or degrees. Several professional/technical programs also offer short-term “stackable” training certificates that build skills and certificates over time.**

### AREAS OF STUDY

- Arts, Design, and Graphics
- Business and Accounting
- Culinary, Hospitality, and Wine
- Education and Human Services
- Health and Medical
- Skilled Trades and Technical Training
- Social Sciences, Humanities, and Language
- STEM

### PREPARING STUDENTS FOR SUCCESS AND FILLING WORKFORCE NEEDS

#### Health Care

Seattle Central College opened a state-of-the-art Health Education Center at Pacific Tower to help meet the explosive growth in the industry: the number of health care openings is projected to increase by more than 23 percent (more than 35,000 jobs) in the next seven years. The 85,000-square-foot facility features labs outfitted with the latest medical and diagnostic equipment, computer labs, a library, and classrooms. Practical experience on equipment used by employers allows students to be job-ready on day one.

#### Maritime

A new building has quadrupled Seattle Maritime Academy's capacity to train new and current maritime professionals. The full mission bridge and engine simulators allow both students and employers to practice challenging scenarios under realistic conditions. With an increase in veteran maritime professionals retiring, the need has never been greater for graduates to fill vital roles in the maritime sector, including commercial and passenger transportation, commercial fishing, deep sea sailing, and the workboat industry.

#### Innovative Programs

In response to industry need, North Seattle College joined efforts with Shoreline Community College to offer applied training in the emerging, rapidly growing field of mechatronics. This two-year program prepares students for immediate employment and future advancement in companies or government organizations that manufacture, service, sell, design, or support electromechanical systems that control machinery, automation, and/or processes. In fall 2018, North also became one of the nation's only community colleges to offer a Bachelor of Applied Science degree in Residential and Commercial Property Management. The program provides a multidisciplinary curriculum, combining business, accounting, and real estate courses. Also in 2018, North introduced two new I-BEST programs in Information Technology and Electronics and Robotics.

#### Integrated Education

In 2017, South Seattle College opened a new 57,550-square-foot Integrated Education Center (IEC) to increase the efficacy of vocational-focused English as a Second Language (ESL) learning, I-BEST training (basic skills while simultaneously getting job training), and nursing pathways for underrepresented populations.
